Sorry but we are not able to take credit or debit card payment.				

MEASURING: Screens can be fitted full height between your window sill/board and the head of your window or to cover the window opening only.

Height: For full height screens, measure the height from the window sill/board at the bottom of your window up to the underside of the beam above the window. For screens to fit the window opening only measure the height of the clear opening and add 5cm.

Width: Measure the clear opening and add 5cm.

ORDERING: Order the kit which suits your sizes.

For example: Height 88cm, Width 60cm. - Order 90cm x 90cm kit.

Height 93cm, Width 50cm. - Order 120cm x 55cm kit.

PLEASE NOTE: Screens can be fitted either with top and bottom channels, with turn buttons or Velcro. All components required to fix either way are included in the kit.

DELIVERY: Goods are normally despatched within two days of receipt of order. Please allow up to 14 days for delivery.
